Re: CP Distributors

ITC Construction Group has worked with CP Distributors for the past 7 years on several of our projects and have found them to be professional, schedule & budget conscious and knowledgeable in their scopes of work. To date all of the ITC projects awarded to CP Distributors have been completed without significant issues, delays or conflicts.

Some of the past projects that ITC has worked with CP Distributors are:

- Stella Condominiums on 12th Avenue SW, Calgary
- Nova Condominiums on 12th Avenue SW, Calgary
- Louise Station Condominiums in Eau Claire, Calgary
- Louise Station Fire Hall in Eau Claire, Calgary
- City of Calgary Affordable Housing Tower
- University of Calgary Student Residences

In addition to the above noted completed projects, ITC is currently working with CP Distributors on the following active construction sites:

- 2300 Kingsway Mixed Use Development, Vancouver, BC
- BC Paraplegic's Association Housing Project, Vancouver, BC
- Yu @ Westbrook Mixed Use Development, UBC
- Luna Condominiums on 12th Avenue SW, Calgary
- University City Condominium Towers, NW Calgary
- CALLA Residential Development, SW Calgary

Based on our long lasting relationship and their proven capabilities and track record ITC Construction Group hopes to continue working with CP Distributors on future projects.

Please call should you have any questions or require any additional information.

Sincerely,

ITC Construction Group

Brad Burnett, GSC
Director of Business Development
