**RE: Letter of Reference for CP Distributors - Calgary, Alberta**

Dear Pat,

RT Integrated Management Inc. is pleased to provide this letter of reference for CP Distributors. We are currently working with CP Distributors on the new Nav Canada Air Traffic Control Tower in Calgary, Alberta.

CP Distributors has provided us with a comprehensive and cost effective supply and installation package for the various components in their scope of work on this project.

We find them to be well organized and proactive in scheduling, coordinating and executing their work. They have proven to be team players who are cooperative, provide prompt service and deal with their commitments and issues in a professional manner.

Working with CP Distributors has been a positive experience and we would not hesitate to recommend their services to others.

*Sincerely,*

*Bob Tetreau*  
*RT Integrated Management Inc.*
